VOLUME EIGHT

1927

LONDON: H. K. LEWIS & CO. LTD., 136, GOWER STREET, W.C. 1.
EDITORIAL AND PUBLISHING OFFICE: 28, GOWER PLACE, W.C. 1.
CANADA: THE MACMILLAN COMPANY OF CANADA, LTD., BOND STREET, TORONTO.

"Ce que je vous ay dict est grand et admirable. Mais, si vouliez vous hasarder de croire quelque aultre divinité de ce sacre *Pathologie*, je la vous dirois. Croyez la ou non, ce m'est tout un. Me suffist vous avoir dict vérité."

RABELAIS.
Pantagruel; Livre III, Chap. LII.

Made and Printed in Great Britain.

Medical
Faxton

CONTENTS

No. 1.—FEBRUARY.

PAGE

TODD, E. W.—A Method of Measuring the Increase or Decrease of the Population of Hæmolytic Streptococci in Blood 1

COWAN, MARY L.—The Separation of Virulent Cultures of *B. diphtheriæ* into Virulent and Avirulent Types 6

LEDINGHAM, J. C. G.—The *Rôle* of the Reticulo-Endothelial System of the Cutis in Experimental Vaccinia and other Infections: Experiments with Indian Ink 12

MCLEOD, J. W., WHEATLEY, B., AND PHELON, H. V.—On Some of the Unexplained Difficulties met with in Cultivating the Gonococcus: The Part Played by the Amino-Acids 25

GORDON, JOHN.—Experiments on Streptococcal Hæmolysin and the Antagonistic Action of Bile and Bile-Salts 38

PEACOCK, P. R., AND WHITBY, L. E. H.—Excitation of Bactericidal Fluorescence by means of X-rays 43

FLEMING, ALEXANDER.—On Wright's Centrifuge Method of Estimating Phagocytosis and the Rate of Opsonization of Bacteria by Normal Serum . . 50

LAWRENCE, R. D., AND BUCKLEY, O. B.—The Inhibition of Insulin Action by Toxæmias and its Explanation.—I: The Effect of Diphtheria Toxin on Blood-Sugar and Insulin Action in Rabbits 58

RABINOWITCH, I. M.—Simultaneous Determinations of Arterial and Venous Blood-Sugars in Diabetic Individuals 76

HEWITT, LESLIE FRANK.—Proteins of the Cerebro-Spinal Fluid 84

No. 2.—APRIL.

FOWWEATHER, FRANK SCOTT, AND GORDON, JOHN.—The Relation between Amino-Acids and the Wassermann Reaction 93

HAPPOLD, FRANK CHARLES, AND TAYLOR, ALBERT.—The Lipolytic Activity of Tubercular Guinea-Pigs' Tissues.—I 101

SUSMAN, WILLIAM, AND HAPPOLD, FRANK CHARLES.—The Lipolytic Activity of Tubercular Guinea-Pigs' Tissues.—II: The Relationship of Cell and Lipolytic Activity in Disease 106

COLEBROOK, LEONARD, AND HARE, RONALD.—On the Bactericidal Action of Mercurochrome 109

ALEXANDER, GEORGE L.—The Tungsten Arc as an Experimental Source of Ultra-Violet Radiation 115

No. 2.—APRIL—*continued.*

PAGE

BURNET, F. M.—The Relationships between Heat-Stable Agglutinogens and Sensitivity to Bacteriophage in the Salmonella Group 121

MACKIE, T. J., AND MCLACHLAN, D. G. S.—Experimental Sensitization to Culture-Filtrates of *Streptococcus scarlatinæ* 129

WALSH, V. G., AND HARMSWORTH, DAPHNE.—The Influence of Coagulation on the Bactericidal Power of the Blood 135

BEDSON, S. P., AND CRAWFORD, G. J.—Immunity in Experimental Herpes . 138

BEGG, A. M.—A Transplantable Fibro-Sarcoma of the Fowl 147

No. 3.—JUNE.

SOLIS-COHEN, MYER.—Accentuating Pathogenic Organisms in Culture by Utilizing the Inhibitory Influence of Whole Blood 149

CHAMBERLAIN, E. NOBLE.—The Effect of Extracts of the Anterior Lobe of the Pituitary Gland on the Liver 155

PARISH, H. J.—Coccal Forms of the Diphtheria Bacillus 162

PERDRAU, J. R.—Preservation of the Virus of Herpes 167

OKELL, C. C., AND PARISH, H. J.—The Standardization of Tuberculin . . 170

DREW, A. H.—The Action of Tumour Extracts on Tissues *in vitro* . . . 176

PETRIE, G. F.—On the Constitution of Dysentery Toxin and its Relation to the Testing of Antidysentery Serum 183

POLSON, CYRIL.—The Action of Sulphonal on Rabbits 197

POLSON, CYRIL.—An Abnormal Material Occurring in the Brains of Rabbits . 205

BANNERMAN, R. G.—A Quantitative Method for Determining the Fate of Tubercle Bacilli Implanted in Human Plasma 209

FLEMING, ALEXANDER, AND ALLISON, V. D.—On the Development of Strains of Bacteria Resistant to Lysozyme Action and the Relation of Lysozyme Action to Intracellular Digestion 214

FILDES, PAUL.—Tetanus.—III. Non-Toxic Variants of *B. tetani* 219

YOUNG, MATTHEW.—Tetanus.—IV. The Geographical Incidence of Tetanus in England and Wales 226

KAY, HERBERT DAVENPORT, AND BYROM, FRANK BURNET.—Blood-Phosphorus in Health and Disease: I.—The Distribution of Phosphorus in Human Blood in Health 240

PROGER, L. W.—The Specificity of the Rous Sarcoma Virus as Tested by Experimental Embryoma in the Chicken 253

BAKER, S. L., AND MCINTOSH, JAMES.—The Influence of Ferment Action upon the Infectivity of the Rous Sarcoma 257

CORRIGENDUM 266

No. 4.—AUGUST.

PAGE

PONDER, ERIC, AND MCLACHLAN, D. G. S.—On the Kinetics of Hæmolysis by Lysins of Bacterial Origin.—I 267

LOVATT EVANS, C., AND ZECKWER, ISOLDE T.—On the Nature of the Hyperglycæmic Response to Injections of Certain Killed Bacteria . . . 280

TODD, E. W.—Observations on the Virulence of Hæmolytic Streptococci . . 289

RABINOWITCH, I. M., AND BAZIN, ELEANOR V.—Simultaneously Determined Arterial and Venous Blood-Sugars and Respiratory Quotient-Time Curves of Diabetics following Insulin Administration 302

TREVAN, J. W., AND BOOCK, E.—The Relation of Hydrogen Ion Concentration to the Action of the Local Anæsthetics 307

DAVIES, D. T., AND DODDS, E. C.—A Study of the Properties of Pure Bilirubin and its Behaviour towards the van den Bergh Reagent 316

TODD, E. W.—The Effect of Streptococcal Toxin on the Bactericidal Power of Human Blood 326

HEWITT, LESLIE FRANK.—Pigment Obtained from Fæces 333

NICOLAU, S., AND GALLOWAY, I. A.—Preliminary Note on the Experimental Study of Enzootic Encephalo-Myelitis (Borna Disease) 336

No. 5.—OCTOBER.

RABINOVICH, M.—Coagulation Time of Blood during Anæsthesia . . . 343

CAMPBELL, J. ARGYLL.—Note on Some Pathological Changes in the Tissues during Attempted Acclimatization to Alterations of O_2-Pressure in the Air 347

KREYBERG, LEIV.—On Systemic Factors in the Genesis of Tar-Cancer . . 352

LEVI, DAVID.—A Note on the Physiological Aspects of Intra-Peritoneal Blood Transfusion 355

TODD, E. W.—The Influence of Sera obtained from Cases of Streptococcal Septicæmia on the Virulence of the Homologous Cocci 361

TODD, CHARLES.—On the Electrical Behaviour of the Bacteriophage . . . 369

RUSSELL, DOROTHY S.—Tetanus.—V. The Local Fate of Tetanus Spores Inoculated into Guinea-Pigs 377

FILDES, PAUL.—Tetanus.—VI. The Conditions under which Tetanus Spores Germinate *in vivo* 387

FLOREY, H., AND FILDES, P.—Tetanus.—VII. The Treatment of Tetanus in Rabbits by large Intrathecal Doses of Antitoxin 393

BROWN, H. C., AND DAVIS, L. J.—The Adhesion Phenomenon as an Aid to the Differentiation of Leptospira 397

EAGLES, G. HARDY.—The Application of the Ramon Flocculation Test to the Toxin and Antitoxin of *Streptococcus scarlatinæ* 403

No. 6.—DECEMBER.

PAGE

FELL, HONOR B., AND ANDREWS, J. A.—A Cytological Study of Cultures *in vitro* of Jensen's Rat Sarcoma 413

BYROM, F. B., AND KAY, H. D.—Blood Phosphorus in Health and Disease.—II. Changes in the Phosphorus Compounds of the Blood in Renal Disease . 429

BEDFORD, T. H. B.—The Nature of the Action of Ultra-Violet Light on Micro-Organisms 437

ROSS, G. R.—Bilirubinæmia in Malignant Tertian Malaria and Blackwater Fever 442

ROBINSON, SYBIL H. G.—An Investigation of the Antigenic Properties of Four Specimens of Bence-Jones Protein obtained from Cases of Myelomatosis . 454

SUSMAN, WILLIAM.—A Contribution to the Therapy of Acute Infections . . 457

KREYBERG, LEIV.—On Local Alterations of the Blood-Vessels of Tar-Painted White Mice 465

BEDSON, S. P.—Some Observations Bearing on the Size of Herpes Virus Particles 470

FLOREY, HOWARD.—Reactions of, and Absorption by, Lymphatics, with Special Reference to those of the Diaphragm 479

INDEX 491
